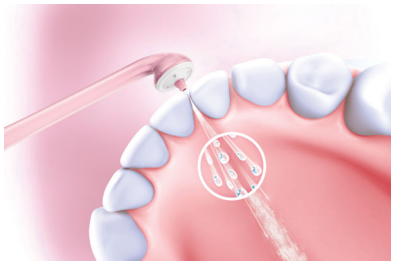
Highlights

Air and micro-droplet technolo



AirFloss utilizes unique air and micro-droplet technology to send a burst of pressurized air and water or mouthwash between your teeth. The one-touch activation button is as simple as a mouse click.

Guidance tip

The slim angled nozzle and guidance tip make finding the correct placement easy. Just slide along the tooth's surface near the gum line until the tip fits into the groove between the teeth.

An easy way to start
Interproximal cleaning is very important to overall oral health. AirFloss is an easy way to clean deeper between teeth, helping to form a healthy habit. After three months of using AirFloss, 96% of inconsistent flossers continued to use AirFloss four or more days per week.
